

# LED Flush Mount

**FM4425**  
INSTALLATION SHEET

## START FROM HERE

- Make sure power is completely off at the fuse box.
- Have your fixture installed by a qualified licensed electrician
- Prepare everything in a clear area.
- Wear gloves at all times during this installation.
- Read instructions carefully before you start assembly.
- Keep this instruction sheet for future reference.

**Technical Support:** 1-877-452-6858

### Please Note:

- All Kuzco LED fixtures come with pre-wired LED module(s).
- Unless instructed to do so, please do not touch any part of the LED module(s) as any unnecessary contact with the module could cause permanent damage.
- For dimming, an ELV (Electronic Low Voltage) type of dimmer is required.

- 1.** Remove the fixture from its original packaging. Next, remove the mounting plate (1c) from within the canopy (2a) by un-threading the four glass covers (2c) and removing the four white screws (2b). Secure the mounting plate (1c) to the junction box with screws (1e) provided in the hardware package.
- 2.** Connect all wires correctly black to black "L", white to white "N" and the ground wire with provided marrets (1b) from the hardware package. Attach the canopy (2a) to the mounting plate (1c) by using the four white screws (2b) provided.
- 3.** Once this is complete, thread the four glass covers (2c) clockwise to the canopy (2c) clockwise to the canopy.
- 4.** You have now completed the installation of your fixture, enjoy.
